

Tacy Foy

Deputy Principal: People and Culture

Senior Examiner OCR Psychology

Andrew Boden

Deputy Principal: Curriculum and Quality

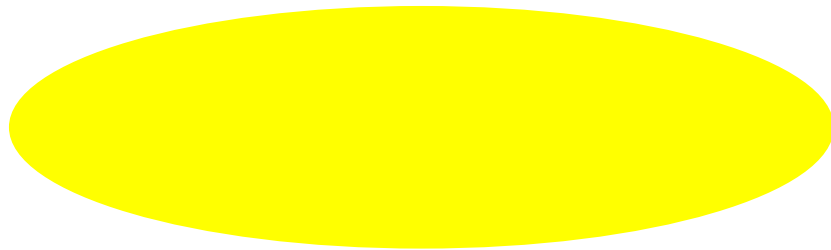

1. Share some of the **same messages**

Progression exams + timeline

Importance of hard work + zero sum game

3 stages of revision

2. How **you can help as a parent – **Hidden Army****

19^h – 22^d April 2022

They will **secure progression to year 13**

They will help inform the College when **predicting grades for
university applications / apprenticeships / job applications**

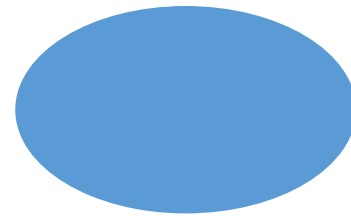

Formal examination timetable

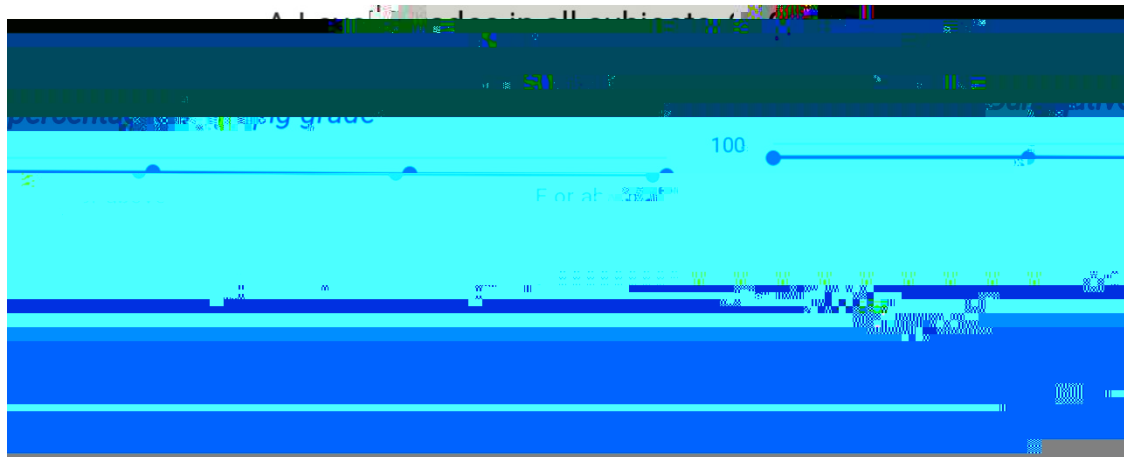

Strict **JQ** examination rules

No mobile phones, **no** watches, **only** clear pencil cases, **only** clear water bottles (no labels).

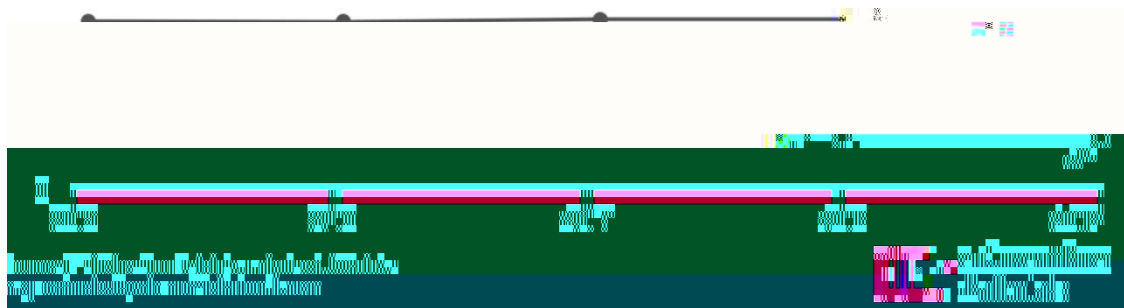

Dcards

What if a student is **late**?

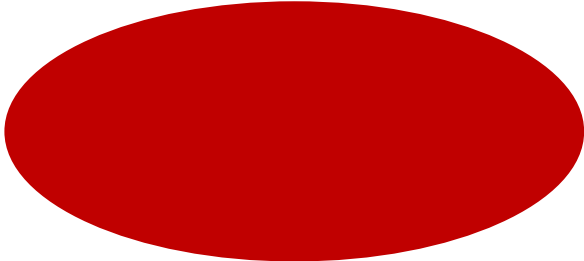

40

A-level grades in all subjects 2015-2016

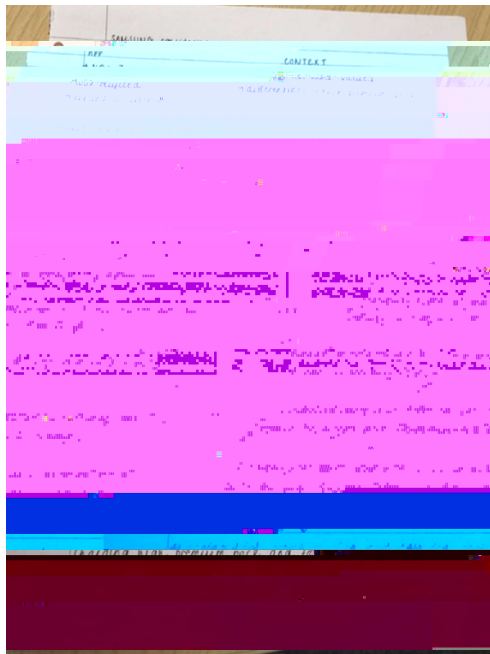

Mindmaps

Revision notes

Chains of reasoning

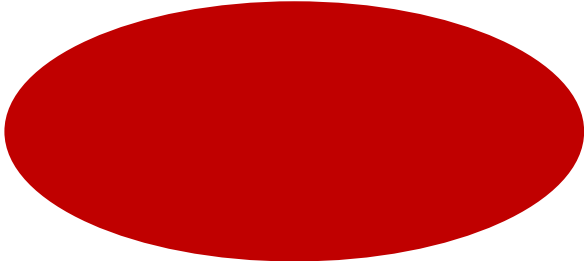

Flash/ cue cards

These help students organise thinking into an order and structure that **they can understand**

Makes it easier for the **student to remember**

Often leads to the 'aha experience**' (I get it now)**

Committing your learning to your **long term memory**

Easily the most
time consuming
part..

Easily the most
difficult part of
revision..

Easily the most
commonly done
badly..

Standard notes

Or highlight notes

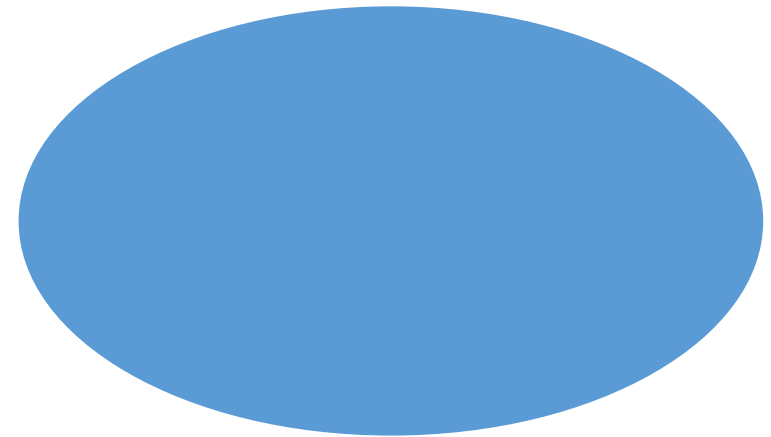

**Or simply make
revision notes**

It feels fresh

You feel you have learnt it

**But rely in short term
memory**

Illusion of knowing

Learn and test for 25- 30 minutes

Take a 5 minute break

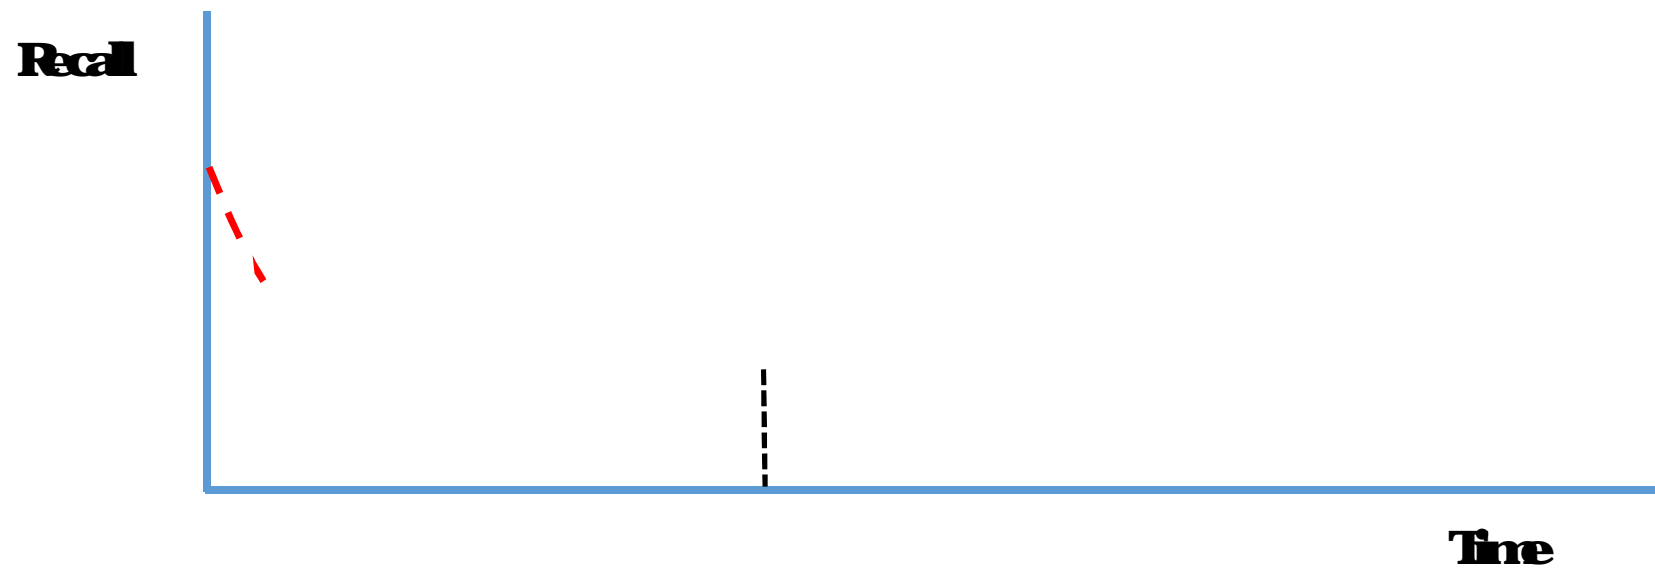

Then retest on return

Then start again on new learning

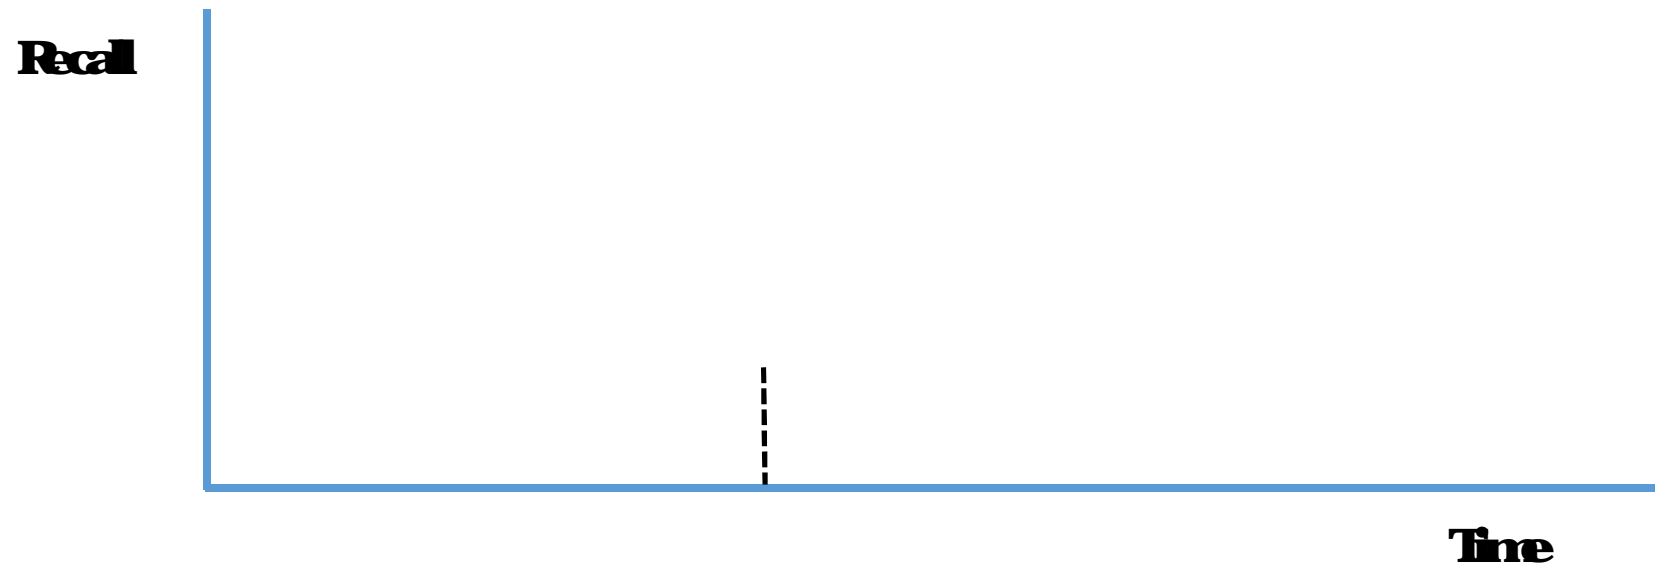

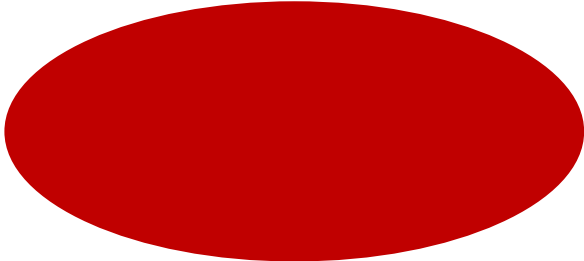

Relearn and retest **over and over** again to interrupt your forgetting

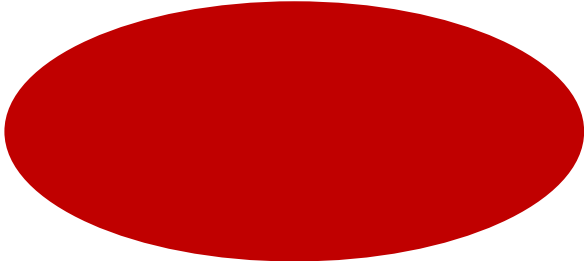

**Relearn and retest over and over again to interrupt your
forgetting**

Relearn and retest **over and over** again to interrupt your forgetting

2 Memoising

Test your son/ daughter – can they recall their points with accuracy?

Encourage (and challenge) them to **better** commit to memory if they still have gaps

Retest them on the sections they are finding most difficult to memorise

3 Question Practice

Take time though your first attempt, what did you **learn**?

Before you start your next practice question – take time though what the **examiner is really looking** for

After you have reviewed your answer – take time though a **correction or improvement you could** make

Revision is never wasted

**Revision is not easy, it is time
consuming**

Zero sum game

Parents are the hidden enemy

'revision' bank account

so start early

what can I do to keep ahead?
